

25HU101/201 Soft Skills

Question Bank Unit 4 & 5

Unit-4

**Unit-4 Reading Skills: Discussion of the Topic, Reading comprehension styles
(Solving Reading passage or case study and Quiz)**

(CO 4)

1. Reading Style Discussion: Skimming, Scanning, Churning, & Assimilation
2. Discussion on the ways to develop good reading practices.
3. Solving Case study based on Communication Barrier and Discussion
4. Solving Reading comprehension & Quiz on AIMS

Unit-5

**Unit-5 Writing Skills: Incorporating 7Cs in writing, Situation based blog writing,
Content organization for Leave, Complaint, Permission, and Internship letter writing
(Discussion and Quiz)**

(CO 5)

1. Discussion on 7Cs with examples: Clarity, Conciseness, Courtesy, Correctness, Concreteness, Coherence, Completeness
2. Content organization in Introduction, Development of Idea, and Conclusion
3. Situation based Responding: Blog Writing, Publishing and Link Sharing
4. Drafting Content for letters: Leave, Complaint, Permission, and Internship letter/E-Mail writing with Block Format

.....

Q 1. Discuss various reading methods.

1. Skimming: This involves quickly glancing over a text to get a general idea of its content without focusing on every detail. Skimming is useful for understanding the overall structure, main ideas, and key points of a text. It helps to get a sense of what the text is about before delving deeper into it.
2. Scanning: Scanning involves rapidly searching through a text to locate specific information or keywords. Instead of reading every word, the reader's eyes move quickly across the page, looking for relevant information. Scanning is useful when you need to find particular details or answer specific questions within a text.
3. Churning: Churning is a more active form of reading where the reader engages deeply with the text, but at a rapid pace. It involves reading attentively while also synthesizing and analyzing information as you go. Churning requires cognitive effort to understand the text's meaning, identify patterns, and make connections between ideas. It's useful for gaining a deeper understanding of a text while still covering a lot of material in a short amount of time. Interpretation and inferences are parts of this method.
4. Assimilation: Assimilation involves integrating new information from a text into your existing knowledge or understanding. It's a reflective process where you consider how the information fits with what you already know, and you may mentally organize or categorize the new information to make it meaningful. Assimilation helps to retain and apply the knowledge gained from reading, turning it into usable insights or skills.

Q 2. Explain the concept of Intensive and extensive reading.

Intensive Reading

Intensive reading is a detailed and focused reading aimed at thoroughly understanding the content and memorizing the information. This type of reading requires a full comprehension of both primary and secondary information. The text is analysed completely: unfamiliar words and phrases are studied, and grammatical structures are examined to understand the logical connections within sentences and between different parts of the text. All available resources can be used for understanding, such as working with a teacher, using a dictionary, and more. Intensive reading is essential when studying books, articles, or texts in educational materials. The goal of intensive reading is to achieve 100% comprehension. Tasks for practising this skill can include a variety of activities, such as correcting statements, matching statements to speakers, answering questions (both direct and paraphrased), summarizing, and retelling the content.

Extensive Reading

Extensive reading involves reading longer texts for pleasure and to improve language skills. With extensive reading, you engage with the details of the text but don't get bogged down by unfamiliar words if their meaning is clear from the context. This is continuous reading, often referred to as "reading for gist." The ability to extract the main information from a text depends on distinguishing between primary and secondary details. The primary information should be fully understood, while secondary information can be understood approximately, without distortion. When reading extensively, understanding 70% of the information is sufficient. Based on this understanding, you can answer questions or express your opinion on the text. To reinforce understanding, you can do tasks like organizing events logically, dividing the text into meaningful parts, and similar exercises. Extensive reading helps reinforce and expand vocabulary, internalize the structure of the language, and gradually introduce new words through contextual understanding.

Q 3. Write a detailed note on Skimming and Scanning.

Skimming: Overview Reading

This is a method of getting a quick overview of an entire selection. The adept skimmer locates and identifies valuable and important parts of a reading selection by moving through the reading from beginning to end, gaining a general idea of the central point and important supporting details. Look for: titles, headings, topic sentences, visual aids, introductory and concluding paragraphs, and major subdivisions of information in the form of a list of ideas, items, steps, or reasons.

Skimming reading is reading for general understanding. It involves quickly going through the text to grasp the main idea and get a sense of the meaning. The key skill is to identify and understand the most important words. It's important not to focus on details or analyze them. You don't need to get distracted by unfamiliar words or grammatical structures. The main goal is to be able to summarize the text.

Skimming can be described as "reading diagonally." It is used to get an overall idea of the text, its plot, or to briefly skim through information before deciding whether to dive deeper into the details.

Particular attention should be paid to the first and last paragraphs (one or more, depending on the length of the text), as they usually contain the main information. The middle part is read quickly, focusing on key points.

Tasks for practicing skimming include:

- Choosing or creating a title for the text
- Matching sentences or the text with images
- Predicting events based on key points in the plot, and more

Scanning: Search Reading

This is a way of finding a specific bit of information within an entire reading selection. Imagine you are taking notes for a paper you must write, studying for a test, or concentrating on just one element of a piece of writing, such as references to the color red in a novel. Look for: names, dates, places, key words or phrases, italicized or boldfaced terms, numbers, or punctuation.

Scanning reading is a type of reading used to find specific information in the text. There is no need to read the entire text. Instead, you go through the text until the required information is found. This information can be specific, such as a date or number, or more detailed, like a description, argument, or rule. It might include dates, names, distinguishing features, or sections to translate.

Mastering the skill of scanning is useful not only for answering questions or providing necessary data. In everyday life, scanning information saves time when full reading is unnecessary. For example, you may scan a transport schedule to find a route, or scan a list of recommendations to find a specific item.

Tasks for developing scanning skills include finding names, dates, descriptions, and other specific data. Additionally, "True/False" tasks can be used to confirm or refute statements based on the text.

Q 4. How can reading comprehension skills be developed?

Ways to develop good reading practices

- Fix a daily reading time to make it a routine.
- Start with topics you enjoy to build consistency.
- Set small page or time goals.
- Use a finger or pointer to improve reading speed.
- Break reading into short sessions for better focus.
- Note unfamiliar words and learn them later.
- Mix light and challenging content for balance.
- Visualize what you read to boost comprehension.
- Revisit key points to strengthen memory.
- Track your progress to stay motivated.

Q 1 Discuss 7 Cs of Technical Language communication.

Examples and usage:

C	Definition	Example 1	Example 2
Clarity	Avoid ambiguity; use simple, direct words so the message is easily understood.	"Submit the report by 5 PM."	Say "by Friday, 10 AM" instead of "soon."
Conciseness	Use the fewest words while conveying the complete meaning.	"Meeting postponed to Monday."	"Application rejected" instead of a lengthy apology.
Courtesy	Maintain a polite and respectful tone, showing consideration for the reader or listener.	"Thank you for your patience."	"We value your feedback."
Correctness	Ensure accuracy in facts, grammar, and spelling.	"Their performance is good."	"The event is on 15th Aug."
Concreteness	Use specific facts and figures instead of vague statements.	"Sales rose by 20% in July."	"Deliver 5 boxes of A4 paper by Monday."
Coherence	Arrange ideas logically so they flow naturally from one to another.	Intro → point → example.	Greeting → purpose → details → close.
Completeness	Provide all necessary information so the reader doesn't have to seek clarification.	Invitation with date, time, venue.	Step-by-step instructions.

Q2. How do we organize content in formal writing?

Section	Definition	Example 1	Example 2
Introduction	The opening section that clearly states the purpose, topic, and context, and engages the audience's interest.	"This blog explores practical solutions to reduce exam stress."	"I am writing to request leave for personal reasons."
Development of Idea	The main body where details, arguments, evidence, and examples are presented in a logical sequence.	"Causes of stress include poor time management, lack of rest, and excessive pressure; remedies include planning, regular breaks, and positive thinking."	"My leave request is due to a family wedding in another city, from 15th to 18th August."
Conclusion	The closing part that summarises key points, reinforces the message, and ends politely or with a call to action.	"Adopting healthy habits can greatly improve performance in exams."	"I hope for your kind approval of my leave request."

Q3. How is a blog written for a situation/topic?

Task	Meaning	Example
Blog Writing	Creating engaging, informative, and well-structured online articles to share knowledge, opinions, or situation.	"Five Tips for Effective Time Management" – a blog post offering strategies for students.
Publishing	Uploading and formatting content on a chosen platform so it becomes publicly accessible.	Publishing the blog on WordPress/Blogger.com with proper headings, images, and tags.
Link Sharing	Distributing the URL of published content to reach a wider audience.	Sharing the blog link via WhatsApp groups and LinkedIn posts.

Q 4. Define the meaning of Leave/Complaint/permission/Internship letter.

Type	Definition	Example
Leave Letter	A formal request to be excused from work, school, or duties for a specific period, stating reason and duration.	"I am requesting leave from 15th to 17th August due to illness."
Complaint Letter	A formal communication to address dissatisfaction, request rectification, or report an issue.	"The laptop purchased on 1st August is defective as the battery does not charge."
Permission Letter	A written request for approval to use a facility, conduct an event, or undertake an activity.	"Kindly grant permission to use the auditorium on 20th August for a workshop."
Internship Letter/E-mail	A formal request to apply for an internship opportunity, mentioning relevant qualifications and duration.	"I am applying for an 8-week summer internship in your marketing department and have attached my CV for your consideration."

Q5. Organize content for a leave letter.

To, The Class Teacher, [School Name], [School Address].	To, The Class Teacher, [School Name], [School Address].
Subject: Leave Application for Student to Class Teacher	Subject: Sick Leave Application for Student
Respected Sir/Madam, I am writing to inform you that I shall not be able to attend school from [start date] to [end date] due to [the reason for leave]. I request you to kindly grant me leave for the mentioned period.	Respected Sir/Madam, I am writing this application to inform you that I am unwell and have been advised bed rest by my doctor. Due to this, I shall not be able to attend school from [start date] to [end date]. Kindly grant me leave for the mentioned period.
Thank You	Thank You
[Your Name] [Class and Section] [Roll Number]	[Your Name] [Class and Section] [Roll Number]

Refer link for other examples.

Q 6. What is an Internship Request Letter Format? Give tips to write a good one.

An internship request letter is a formal letter that students or job seekers write to apply for internship opportunities in companies, hospitals, banks, or other organizations. Learning to write a clear, professional internship request letter is important for school exams, college projects, and real-life job applications. It helps students develop strong communication and writing skills in English.

Internship Request Letter Format

A good internship request letter follows a formal structure. Each part has a purpose. This simple format will help you write your own letter and avoid missing any part.

1. Your address (top left corner)
2. Date
3. Recipient's address (below your address)
4. Subject line (e.g., Request for Internship Opportunity)
5. Salutation (e.g., Respected Sir/Madam)
6. Introduction (state who you are and the purpose)
7. Main body (education, skills, enthusiasm, reason for applying)
8. Polite closing sentence (e.g., Looking forward to your reply)
9. Formal ending (Yours faithfully or sincerely)
10. Signature and name

Key Tips for Writing an Internship Request Letter

- Keep the tone polite, formal, and positive.
- Mention your skills and interest, even if you have little experience.
- Personalize each letter for the company or role.
- Check for grammar and spelling mistakes.
- Keep the letter short—one page is enough.
- Attach your CV or resume when possible.
- Use a clear subject line and correct designation.

Q 7. Write an Internship request letter in block format. Create suitable details to support your answer.

Sample Internship Request Letters

Here are sample internship request letters for different situations. You can copy, edit, or use these as inspiration for your own letter.

1. Internship Request Letter from Student to Company

Your Address

City, Pin Code

Date: 20 March 2024

The HR Manager

ABC Solutions Pvt. Ltd.

Bangalore - 560001

Subject: Request for Internship Opportunity

Respected Sir/Madam,

I am Ram Kumar, a third-year B.Tech student at XYZ College. I am interested in the Software Development Internship at your company. My skills in Java and teamwork make me confident that I will contribute positively.

This internship will help me apply my classroom knowledge and gain industry experience. I am eager to join your team and learn from accomplished professionals.

Kindly consider my request. I look forward to your reply.

Yours faithfully,

Ram Kumar

2. Internship Request Letter from College to Company

XYZ College of Engineering
City, Pin Code
Date: 15 March 2024

The General Manager
DEF Manufacturing Ltd.
Hyderabad - 500002

Subject: Request for Internship Placement for Students

Respected Sir,

On behalf of XYZ College, I request you to offer summer internship placements to our B.Tech final-year students in your organization. This practical training is part of our academic program and will enhance their professional skills.

Please consider our request favorably and inform us about the selection process.

Yours sincerely,
Prof. S. Gupta
Training & Placement Officer

3. Internship Request Letter for Hospital Training

Your Address
City, Pin Code
Date: 10 March 2024

The Principal
Sunrise Hospital
Mumbai - 400011

Subject: Request for Internship in Nursing Department

Respected Sir/Madam,

I am Anjali Sharma, a second-year B.Sc Nursing student at LMN College. I wish to do my internship in your renowned hospital's Nursing Department to gain practical experience.

Please give me a chance to learn under your expert guidance.

Yours faithfully,
Anjali Sharma

Editable Internship Request Letter Template

You can use this simple template and fill in your own details:

Your Address

City, Pin Code

Date: _____

The [Recipient's Designation]

[Institution/Company Name]

[City, Pin Code]

Subject: Request for Internship

Respected Sir/Madam,

I am [Your Name], a [Course/Year] student at [College/School Name]. I wish to apply for an internship at your esteemed [company/institution] to gain practical knowledge and improve my skills.

I hope you will consider my application.

Yours sincerely,

[Your Name]

In summary, an internship request letter is a key skill for students and job seekers. It should be formal, clear, and personalized for each application. Practicing this letter format will help with exams and prepare you for real job opportunities.
